I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR

1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☒ by reason of a defective specification or drawings.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☒ by reason of other errors.

At least one error upon which reissue is based is described as follows:

I believe the original aforesaid patent to be wholly or partly inoperative by reason of errors in the specification. Consequently, U.S. Patent No. 5,719,618 does not broadly claim the subject matter to which the Applicant was entitled. It is our intent to obtain broader coverage of that subject matter with this reissue application.

1. By way of example, although the specification in column 1, lines 13 and 14 define the "systems" broadly and use a video tape recorder as one example of "the systems" that use and on-screen display function, independent method claim 1 and independent apparatus claim 2 define the subject matter of the invention narrowly as incorporating "a video cassette recorder." Newly added claims 9 through 59 however, more broadly defines the subject matter of the invention.
2. Dependent apparatus claim 3, in line 34 inadvertently omitted a "not", thereby altering the definition of the "match".
3. None of the claims 1 through 8 broadly define the apparatus and processes that may be implemented to practise the inventions disclosed.
4. All of these errors occurred inadvertently, and without deceptive intent by the Applicant.
